

U.S. Serial No. 10/700192
Amendment Dated February 1, 2005

REMARKS

The pending application was filed on November 3, 2003 with claims 1-5 and 7-41. The Examiner issued a Non-Final Office Action dated September 9, 2004 rejecting claims 1-5, 7-11, 13-20, 22-30, 32-34, and 36-41, and objecting to claims 12, 21, 31, and 35. In response, the claims were amended in agreement with the Examiner's suggestions. The Examiner phoned the undersigned representative on February 1, 2005 and stated that the safety switch of renumbered claim 20 was not shown in the drawings. An agreement was reached that the Figure 1 would be amended to show the safety switch and appropriate amendment to the specification.

In response, Figure 1 has been corrected to show the safety switch, which is identified with numeral 45. In addition, the Specification has been amended to identify the safety switch as element 45. The application is now in a condition for allowance, and the Examiner is respectfully requested to issue a timely Notice of Allowance.
